

Trauma Informed Care and Adverse Childhood Experiences

Save the Date

Featuring keynote speaker:

Dr. Dipesh Navsaria

Toxic Stress and Childhood Adversity in
Early Brain Development

Dipesh Navsaria, MPH, MSLIS, MD is an
assistant professor of pediatrics at the University
of Wisconsin School of Medicine and Public
Health.

During this workshop participants will learn to:

- realize the widespread neurological, biological, psychological and social impact of trauma and adverse childhood experiences (ACE),
- recognize the signs and symptoms of trauma and ACE in students and families,
- respond by integrating knowledge about trauma and ACE into policies, procedures, and practices in schools, and
- seek to actively resist “re-traumatization”

May 5, 2015
8:30 a.m. - 3:00 p.m.
LaSures Banquet Hall
