

Creating A Quality Professional Development Plan (PDP)

Saturday, January 9, 2016

Registration: 8:30 AM – 9:00 AM

Training: 9:00 AM – 3:30 PM

CESA 12 Conference Center

- *Get your PDP Started!*
- If you received your educator license after August 31, 2004 and are issued an Initial Educator License by the DPI for the first time in a particular category, then you need to start a PDP!
- During this training, educators will learn through a web-based environment that prompts the development of a high-quality professional development plan to address self-identified learning needs based on professional reflection.
- Educators will be introduced to two different web-based programs to complete their PDP. As of December 1, 2013 the DPI will no longer be accepting paper applications.
- Educators will begin working on the various components of their PDP that need to be completed at their stage in the process.
- Apply your professional growth efforts and local initiatives while you work on your Professional Development Plan for license renewal.
