

WISExplore

2015 Data Retreats

A Wisconsin CSN (CESA Statewide Network) Initiative

K—8: July 30—31, 2015 • HS: August 3—4, 2015

Mary Ann Hudziak, CESA 6 Coordinator of Mathematics and ESEA Support

Purpose

Welcome back to data retreats of old, where results were not in a nice online format!

Take this opportunity to enhance your skills related to the data inquiry process and data mining. School-improvement teams, including Title I, Special Education, Alternative Education and ELL team members, when applicable, are welcome and encouraged to participate in these workshops. Participants will utilize an inquiry process to examine vendor reports for the Badger Exam (K-8), the ACT, ACT Aspire and WorkKeys (HS).

Participate in a guided process to ...

- Use state data tools and the WISExplore process
- Explore and analyze achievement, growth, attendance, gaps, post-secondary and other state-available data to the student detail level
- Determine data questions, document data findings, formulate data inferences
- Inform the school improvement process, with connections to annual goals, AMOs, SLO focus areas and strategic action plans

Requirements:

- School / District Leadership Teams, including Title I, Special Education, Alternative Education, and ELL personnel, when applicable
- WISEdash and MDAT access to student detail analyst level
- A laptop computer or ipad (internet ready) for each participant
