

## How Do These Offerings Apply to Standards...?

Crosswalks provided at every workshop!

**ISTE Standards**

**Danielson Components**

**EP Performance Standards**

### The SAMR Model enhancing technology integration

Ruben R. Puentedura, Ph.D.

Enhancement	<b>Redefinition</b>	technology allows for the creation of new tasks, previously inconceivable	create a narrated Google Earth guided tour and share this online
	<b>Modification</b>	technology allows for significant task redesign	use Google Earth rulers such as protractors and 360 views to research locations
Transformation	<b>Augmentation</b>	technology acts as direct tool substitute, with functional improvement	use Google Earth rulers to measure the distance between two places
	<b>Substitution</b>	technology acts as a direct tool substitute, with no functional change	use Google Earth instead of an Atlas to locate a place

# Take control of your professional learning with CESA #4's array of digital learning series...

Choose from any offering in a series OR take the series as a whole at a discount! Choose from (3) credit options based on attendance, design your Professional Development Plan (PDP), and increase your capacity to effectively and intentionally integrate technologies into your classroom instruction.

These series offer teachers and districts options by promoting learner ownership to meet both professional and district-wide goals.

All workshops are aligned to ISTE Teacher Standards, Danielson Components and EP Performance Standards.

## THE "SUITE" SPOT: GOOGLE APPS FOR EDUCATION SERIES

### *Getting Your Google On (Basics)*

November 10, 2015

So you have Google Apps for Education and need to know the basics? Starting from scratch? Come learn how to fully integrate these powerful tools to impact student engagement and achievement in your classroom.

### *Gearing Up Your Google Apps for Ed (GAPE)*

January 19, 2016

Shift into a higher gear by moving your GAPE forward! We dig deeper into everything your school's Google accounts has to offer and you will leave with the ability to model to students how they, too, can maximize their GAPE tools.

### *Shake Up Differentiation in Your Classroom with Chrome Apps and Extensions*

March 08, 2016

Take your Google goodness one step further with customizing and differentiating your instruction through Chrome Apps and Extensions. Learn how to create quick assistive tools for students of all abilities.

### *Taking It to the Top: Advanced Features for Googling Teachers*

April 21, 2016

This final installment is actually only the beginning; learn advanced features and latest tips/tricks of GAPE, how to integrate Google Earth across content areas and what it means to customize your entire apps suite to best meet the needs of your classroom students.

## iLEARN, iCREATE, iSHARE WITH iPADS: OPTIMIZING STUDENT LEARNING

### *iPads 101: Getting Comfortable in the Classroom*

November 03, 2015

Starting from scratch, participants will learn settings controls, assistive features, tips and tricks for using the iPad while being introduced to educational apps to get started!

### *iContent: iPad Apps for Content Literacy*

February 16, 2016

Once comfortable with the iPad device, come learn about the vast array of content literacy apps in all content areas for all grade levels! Explore STEM, Social Studies, Fine Arts, Health/PE, ELA, Math, Science and much more. "There's an app for that!"

### *From Consumers to Creators: Turning Over Reins to Students*

April 07, 2016

Twenty-first century skills require students to create, communicate, collaborate and think critically. Reach a new level of impacting student learning in this advanced iPads workshop by finding apps to compose digital stories and visuals as well as support this creative and critical thinking!

## DIGITAL LEARNING POTPOURRI: LEVERAGING 21ST CENTURY TOOLS FOR 21ST CENTURY LEARNERS

### *Formative Assessment for Driving Instruction*

October 27, 2015

As formative assessments have become more critical to classroom instruction, the need to understand how this relates to students and what to do is more important than ever. Explore tools such as Today's Meet, Google Forms, Poll Everywhere, Socrative and GoFormative to inform your instruction.

### *Empowering Students, Empowering Schools: Digital Voices*

January 14, 2016

Founder of Global Read-Aloud and two-time author Pernille Ripp will share insights and best practices for empowering student voice through digital tools such as student blogs to reach a global audience.

### *Flipping Lessons to Maximize Face-to-Face Classroom Time*

March 03, 2016

This hands-on workshop allows participants to leave with a fully-recorded, flipped lesson to share with students. They will also learn how to webcast, screencast and podcast with numerous tools and plenty of exploration time.

*Please bring a lesson to flip!*

### *Connecting the Dots: Tech and Content Standards*

April 14, 2016

This workshop provides a crosswalk between content standards, Educator Effectiveness components and others to create instructional lessons by integrating helpful tech tools.

*Participants are encouraged to bring a standards resource or have access to respective content standards.*
