

# Connecting the Dots: Clarity Technology and Learning Research

**Thursday, June 25, 2015 • 8:30 a.m. - 12 p.m.**

**Facilitator: Karen Goldstein**  
Education Research Partner

## Description

The day is finally here! Your CASE Clarity data collection is complete and it's time to review how technology integration is impacting student outcomes in your schools. Walk through the data while understanding how best to take advantage of your dashboard. Dive into success indicators and data points that are the greatest priorities for your organization. Learn how to capture data for seamless communication and updates to stakeholders. Make the most of your customized reports and recommendations as you begin identifying "high priorities" in order to establish future SMART goals and develop an action plan to support those goals.

Represent your school or district by coming together as a vertical team. The pace of the workshop, activities and tools are developed with team collaboration in mind. The experience will be much more beneficial if the following types of roles could be represented on a vertical team (ideally three individuals):

- Superintendent and/or Assistant Superintendent
- Directors (Professional Development, Curriculum, Technology)
- Administrators
- Media Specialists, Instructional Technologists, Integration Specialists
- Lead Teachers

## About the facilitator

Karen is a veteran educator, with more than 25 years of teaching and instructional coaching experience in public schools in Indianapolis, Indiana. She is a Nationally Board Certified Teacher and a Teacher Consultant for the National Writing Project. Karen is also a co-author with Judith Lysaker and other teacher researchers of the NCTE-published book *Teacher Inquiry in Literacy Workshops: Forging Relationships Through Reggio-Inspired Practice*. She received her BS from Ball State University in 1990 and her MS in Effective Teaching and Leadership from Butler University in 2006. Most recently, she worked as an Account Manager and Assessment Specialist for Houghton Mifflin Harcourt, where she managed custom assessment projects, provided professional development on assessment and early childhood topics to customers and internally as well as developed training materials.
