Tech Leaders Network (IMTIN & CODLC) Series

This collaborative network is designed for:

◆ Technology Coordinators
◆ Technology Coaches/Specialists
◆ Library Media Specialists/Instructional Resource Coaches

This forum for discussion and learning will share ISTE best practices and updates on technology funding and legislation as well as explore ways to best meet district needs by utilizing SAMR and TPACK models of technology initiatives. Topics related to school media and technology will be established and explored by members.

This network is *FREE* to districts that have purchased project #320-IMTIN and #363 Coulee Online services. Check with your administrator.

Members also receive access to a private Google+ CESA #4 Tech Leaders Community, where resources, grant ideas, and continued conversations and support are shared.
