

Start your Imagine Learning program off on the right foot

Learn about the research-based Imagine Learning content and see how it supports an individualized learning experience in a blended learning environment. Understand the basics of managing the program while exploring numerous ways to support student learning.

BASIC IMPLEMENTATION TRAINING

BIT-1: Implementation Essentials

Date: Thursday, September 10, 2015

Time: 9:00 AM - 12:00 PM

Place: CESA 6 Conference Center, 2300 State Rd. 44, Oshkosh, WI

In the instructor-led training, teachers will:

- Discover the Imagine Learning instructional platform and learn how it supports an individualized learning experience in a blended learning environment
- Identify the research-based principles used to build Imagine Learning
- Experience first-hand some of the thousands of activities that engage students and make learning fun
- Demonstrate the essentials of program management, including how to set up and edit user accounts, navigate the Manager, and facilitate student sessions
- Explore supplementary tools and offline resources
- Determine how to access technical and customer service support
