Onalaska, WI 54650

What is a hybrid event?

A hybrid event is an opportunity for you and your colleagues to experience one of our conferences without traveling or incurring food and lodging costs. Instead, at a convenient location of your choosing, in this case Omni Center, your staff will receive expert on-site facilitation in support of keynotes and breakouts from leading PLC experts.

We prefer to use the term hybrid event because this is not going to be like sitting at your computer or watching the conference on TV. It is a multifaceted, participatory, and guided alternative experience that captures the collaborative dynamic of the conference.

Event Overview

The PLC at Work™ process is increasingly recognized as the most powerful strategy for sustained, substantive school improvement. This event gives you and your team the knowledge and tools to implement this powerful process in your school or district.

For those just beginning to explore PLCs, this is an excellent way to build your knowledge base. For those who are already involved in deep implementation, this event is the perfect opportunity to assess your progress and identify high-leverage next steps for implementation, introduce new team members to the process, and get answers to new questions.

As you delve deep into the three big ideas of a PLC—focus on learning, build a collaborative culture, and results orientation—you will gain specific, practical, and inspiring strategies for transforming your school or district into a place where all students learn at high levels.
