# CESA #4 SIS/DAC Network

## IMPLEMENTATION SUPPORT

Create a network of individuals who are facing the same challenges with launching state assessments.  Use this network to share strategies, resources, and insights.

## ACCESS TO INFORMATION

Use your network to stay apprised of updates and evolving resources.

## GET STARTED—THEN GET BETTER

Learn what other districts are doing to prepare for state assessments.  Use the power of the group to identify lessons-learned for a smoother test cycle the next time around.

- **Aimed at District Assessment Coordinators (DACs)**

- Meet, network, and problem-solve with other DACs:
    - * Wisconsin Forward
    - * Aspire
    - * Dynamic Learning Maps
    - * ACCESS
    - * ACT
    - * WorkKeys

- CESA #4 staff will share information and resources

The purpose of this networking group will be to provide support for DACs who are charged with launching Wisconsin Forward, Aspire, Dynamic Learning Maps, ACCESS, ACT, and WorkKeys.  This is an opportunity to share the great work you are doing, high-light problems you have solved, and ask questions of others.  While CESA #4 staff may share information and resources, this is really intended as an opportunity to build a robust DAC network.
