

Early Childhood: Special Education Apps for Language and Literacy

January
24,
2017

8:30 am -
3:00 pm

CESA 9,
Tomahawk

About this workshop:

This full day workshop will explore the use of the iPad and apps for the very young learner! Come and see apps for the development of fine motor, language, literacy, and communication. Participants will learn how to use the iPad with its camera and multimedia features to create rich literacy and language activities for young children typically receiving educational services in an early childhood classroom.

About the presenter:

Paula Walser, MS/CCC SLP, is recently retired technology consultant who is a Certified Speech and Language Pathologist and Special Education Early Childhood teacher. She is a graduate of the Apple Academy, a Smart Certified trainer and provides professional development to school districts, Universities, and professional organizations nationally in the areas of Assistive Technology and Universal Design for Learning, Using Google - Apps and Extensions for the Classroom, Augmentative and Alternative Communication, Integrating Chromebooks into the Curriculum, and Apps for the Classroom.

Cost: Free (includes lunch)

Audience: Early Childhood Special Education staff, Birth to 3, 4K, Speech Clinicians & Collaborating Partners in inclusive settings: Headstart, Childcare.
