# TEACHING STUDENTS WITH AD/HD

**THURSDAY, APRIL 06, 2017**  
**9:00AM–3:00PM**

*Are you struggling to meet the needs of students in your classroom identified ADD/ADHD...?*

This workshop is designed to increase your toolbox with management strategies to help students succeed academically, socially, and behaviorally in the universal classroom. In addition to addressing the unique needs of students with ADD/ADHD, the strategies are also appropriate for children and teens who may have executive function weaknesses, or who are experiencing any learning, attention, or behavioral difficulties. This workshop is open to any PK-12 regular or special educator.

We will also discuss intervention plans, communications forms, and much more!
