### Description:

#### Improving College and Career Readiness with Academic and Career Planning Portfolios

Students at the Whitewater Unified School District (WUSD) have been graduating with a comprehensive and Academic and Career Planning portfolio since June 2013. Discover how WUSD established their program as a graduation requirement, the essential career and academic planning components that support college and career readiness for the entire student body, how it is delivered to the students, and the results with supporting data.

Presented by Pamela Sonmor-Wintz, counselor and Doug Parker, Principal

#### Connecting with Our Local Workforce

The Department of Workforce Development (DWD) will be providing hands-on demonstrations of web-based tools to help you build your ACP curriculum. DWD will also highlight the value of working with your local Job Center, showcasing the School District of Milton's success in connecting with employers for job fairs, on-site visits, and additional collaborations.

Presented by Heath Bierman, Employment and Training Specialist, DET, DWD and Amy Kenyon, School to Career/Youth Apprenticeship Coordinator, School District of Milton

#### What can JEDI do for you?

Jedi can provide learners with a comprehensive, standards-based curriculum for both full and part-time virtual students and single course offerings that supplement and enhance traditional student coursework. JEDI helps districts retain students by offering an online environment customized to each student's needs.

#### ACP planning time

Time will be allotted for school districts to work on individual Academic and Career Plans, as well as time to network with other districts.
