The Math Collaborative

Wednesday, March 15, 2017

Presenter: Lori Rugotska, Ed.D.

Coordinator of: Dynamic Learning Collaborative, Educator Effectiveness, CESA 6 Effectiveness Project

Description

The Math Collaborative is a learner-centered approach to inspire and influence mathematics success for all learners. This introductory meeting was planned by math teachers from around the region.

- The morning session (8:30 – 11:30 a.m.) will focus on 6-12 math educators as we collaborate around constructing arguments and critiquing the reasoning of others along with some structured networking time to explore current math issues.
- The afternoon session (12:30 – 3:30 p.m.) will focus on K-5 math educators, administrators and enthusiasts are invited to collaborate around helping students become effective problem solvers. The day will end with another round of structured networking time.

The day is FREE to all interested participants.

The Math Collaborative for 2017-2018

The goal of this group is collaborative, member-centered and member-driven learning. Members are invited to serve on the Steering Committee to develop agendas based on the needs and interests of the members.

While the goal is to have collaborative, member-driven learning, we anticipate some of the following may be covered:

- Interventions for struggling mathematics learners and programming for accelerated students
- Building conceptual understanding
- Exploring the Common Core and Learning Progressions
- Digging into the Principles to Action and Math Practices
- Current issues and hot topics in math

Who should attend?

Math Educators, Math Coordinators, Interventionists, Administrators, and Math Enthusiasts!
