**Description:** Educators recognize the need for timely, effective nonviolent interventions with students who exhibit challenging behaviors. They know that such interventions improve the physical safety of all participants and create a more trusting and caring learning environment.

The Nonviolent Crisis Intervention® program is a safe, non harmful behavior management system designed to help educational and human services professionals provide the best possible Care, Welfare, Safety and Security of disruptive, assaultive, and out-of-control individuals.

The new enhanced NVCI programing provides the same core program, now with additional content and new physical intervention options.

**Note:** All training will be the Enhanced Training content. Due to CPI quality standards, trainers will no longer be teaching the legacy version of the NVCI content.

**Prerequisite:** Participants must have attended an initial or refresher Nonviolent Crisis Intervention training within the past 18 months.

### Workshop Objectives:

- Identify the appropriate measures to avoid, decelerate and/or de-escalate a crisis situation.
- Assess the level of risk associated with a crisis situation and intervene appropriately
- Manage behavioral risk by learning disengagement and/or holding skills
- Describe the potential impact that crisis situations have on individuals and staff.
- Explain the importance of providing person-centered, proactive services

### Who should attend?
