

# The Inquiry Process in Social Studies

*What does an inquiry cycle look like in social studies?*

*How can I use this for curriculum work and in the classroom?*

*What resources are already out there that I can build upon?*

*Why are inquiry cycles considered best practice in social studies?*

We have known for years that inquiry is a best practice in social studies teaching and learning. There are four main parts to the inquiry cycle:

- Questioning
- Research
- Analysis
- Communicating results

This workshop will explore each part, assess what already exists in social studies inquiry resources, and allow you to build inquiries for YOUR classroom. Kristen will also provide an update about where we are in the process of identifying and transitioning to new Wisconsin State Social Studies standards.

**Presenter:** Kristen McDaniel, DPI Social Studies Consultant

**Audience:** K-12 Educators and Directors of Instruction

**Date:** April 20, 2018
