“The standards are designed to be integrated into the various content and skill areas of the school curriculum. The focus is on learning with information and technology rather than learning about information and technology.”

Objectives for the day:

- Understand the importance of ITL Standards and how they are interconnected in all subject areas (Why)
- Understand the standards and how they align to local context (What)
- Create next steps of application in your educational setting (How)

Suggested members of your District ITL Collaborative Leadership Implementation Team
