**The Wisconsin PLAC is made up of school districts throughout the state that share a common focus to create better learning opportunities for the students and staff they serve.**

Throughout the state of Wisconsin, districts are working on the same initiatives with the same professional learning needs. By collectively working with FIRST Educational Resources and CESA 6, these districts are now afforded the opportunity to learn from each other through monthly networking opportunities, identify collective needs, and determine ways to save money for each district.

It's time we start bringing districts together to work through their professional learning needs and the Wisconsin Professional Learning & Assessment Consortium provides this opportunity in a cost effective and powerful way.
