

Design your way to School Change with STEM | Session #2

Nov 8, 2019 | 8:30 AM – Noon

Connecting the STEM Pipeline from K to Career

Collaboration among partners, schools, businesses, community members, and after-school programs can strengthen student readiness and academic achievement. An effective STEM campus will grow and connect STEM learning opportunities for all students. Strategies for Engaging Parents/ Families, Teachers, Guidance Counselors, Higher Education, and Business Partners to Expand Pathways to STEM Careers will be shared.

Operational Planning for successful implementation and Sustainability

Special attention needs to be focused on articulating measurable outcomes for the STEM education program and its evaluation. Learn how to define the program outcomes to help program staff, and other stakeholders know what to look for and give clues on how to measure them.

WHO SHOULD ATTEND?

Educators and administrators of students in ALL grades.
