

UW-La Crosse Adventure Program Outdoor Challenge Course

Things to bring:

- 1) Water & food (snacks)
- 2) Hat to protect from Sun
- 3) Sunscreen or sunblock
- 4) Bug Spray
- 5) extra layers of clothing based on weather (raincoat, sweatshirt, gloves, stocking cap)
- 6) Old shoes, or shoes you are not worried about getting wet (grass is usually full of dew in the morning and groups right after rain will get wet shoes)
- 7) Those with students with severe bee sting allergies that require an epi-pen should be carrying it with. We are outside and do have bee's and other insects at the course.
- 8) Buses can drop off in the C-5 lot, which is where you would turn left into C-5 at the end of East Avenue. There is a lot of shipping and work vehicles driving into the parking lot that travel down along the North end of the parking lot, so please do not have your buses park there.

Parking is monitored so do not park personal vehicles in lot C-5 unless you have a day pass permit.

The parking on east Avenue is going to turn into pay by phone parking. Using the app "passport". It will also have a four hour time limit on it. Myrick Park Drive is currently free parking but is potentially changing to 2 hour parking.
