USING DLM SCORE REPORTS TO INFORM INSTRUCTION FEBRUARY 14, 2020 | 8:00 AM - 3:00 PM

DESCRIPTION:

Participants will dig deeply into their students' DLM score reports for the spring 2019 testing. They will learn how to use the information found in the report to inform their instruction for individuals and groups of students. Instructional and professional development resources will be explored that link directly to the DLM.

OBJECTIVES:

Participants will leave the workshop being able to answer the following questions:

- What does the DLM measure?
- What is skill mastery?
- What information is contained in the score report?
- How can the score report be used?
- What resources are available?

WHAT TO BRING:

Participants registering should bring the following to the training:

- A device to access the internet
- Student DLM score reports that include both the Learning and Performance Profiles
