PRESENTING AT

923 East Garland Street
West Salem, WI 54669

Clear up misconceptions about what is and is not standards-based assessment and grading. Join Rick to explore what it means to be truly evidence-based in assessing and reporting your students' achievements as related to standards and learner outcomes.

STANDARDS-BASED ASSESSMENT AND GRADING WITH RICK WORMELI

In this introductory session, he addresses the biggest concerns in grading today: Averaging, zeroes on the 100-point scale, re-do's, percentages, grading scales, late work, valedictorian, marking homework, and grade book and report card design. You'll also look at formative vs summative assessments, reporting behavior/effort/character elements, disaggregation, and much more.

MAY 15, 2020

8:30 A.M. TO 3:00 P.M.

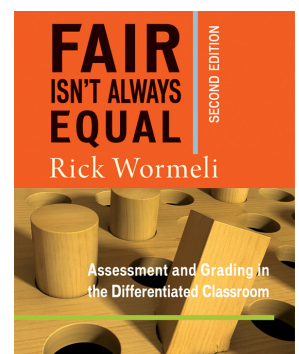

Event cost is \$175 per person which includes a copy of Fair Isn't Always Equal (2nd edition).
