Additional details and the conference brochure will be available soon.

To keep the health and safety of all conference participants a priority the planning committee has decided to shift the 2020 Building the Heart of Successful Schools Conference to an **all virtual** event, December 2-4, 2020. Registration cancellations and refund requests will be honored with flexibility. For 20 years the Building the Heart of Successful Schools Conference has been a place for Wisconsin educators to gather and learn alongside their colleagues. We know powerful ideas and strategies will be shared at the 2020 conference and we look forward to learning alongside you **virtually** at the 2020 BHSS Conference, and seeing you in-person again in the future!

—The BHSS Conference Planning Committee
