

# Regional Learning Community Virtual Series

2020 - 2021 SCHOOL YEAR

## DESCRIPTION:

A Regional Learning Community is space (virtual) for you to come together with your team and other schools who are working on implementing comprehensive school mental health to share and learn from one another. The format will be a blend of formal content along with time to process, share, and ask questions.

*"If schools want to enhance their organizational capacity to boost student learning, they should work on building a professional community that is characterized by shared purpose, collaborative activity, and collective responsibility among staff" (Newmann & Wehlage, 1995, p. 37).*
