

2020-21 SCHOOL PSYCHOLOGIST VIRTUAL NETWORK

This is an opportunity for CESA #4 school psychologists to come together to discuss topics that are directly related to quality programming and services for your districts and students. Agenda items will include RtI/PBIS, special education eligibility, 504s, progress monitoring, and more based upon participant feedback.

Please join us this year for our newly virtual network! We are looking forward to coming back together after a long break. We again, also look forward to learning from all of you and continuing our support for each other during these ever-evolving times. **This year we are welcoming co-facilitator Kelly Demers, the newest member of the school psychologist team at CESA #4!** Kelly brings a wealth of knowledge to the table that has helped us create an informative and collaborative network experience.
