

# ACT READING & ACT MATH

## TEACHER—CENTERED and CONTENT—FOCUSED

Presented by: **Bryan Williams, ACT Program Director**

December 9, 2020 | Reading 8:30 AM – 11:30 AM • Math 12:00 PM – 3:00 PM

### ACT Reading: A Teacher-Centered and Content-Focused Workshop

This half-day workshop specifically focuses on the ACT Reading content test and is designed to address the needs of educators, with a focus on reading at the secondary level, to understand, integrate and blend the ACT Reading content area across high school courses. The goal is not to "add to the plate", but rather to provide the educational practitioner with strategic information about the ACT Reading test that is usable and impactful. Through content—focused activities, the workshop will provide the educator with actual ACT test content to help explain, then integrate across your school's content area course offerings.

### ACT Math: A Teacher-Centered and Content-Focused Workshop

This half-day workshop specifically focuses on the ACT Math content test and is designed to address the needs of Math educators to understand, integrate and blend the ACT Math test format into their high school instruction. The goal is not to "add to the plate", but rather to provide the educational practitioner with strategic information about the ACT Reading test that is usable and impactful. Through content—focused activities, the workshop will provide the educator with actual ACT content to help explain, then provide the platform to apply the knowledge and skills learned to increase the connection of the ACT and your school's Math content area.

*Bryan Williams, Ed.D., is part of the ACT Professional Learning team. With 30+ years experience in K12 education, Bryan is a former classroom teacher, principal, and district level Director with a focus on curriculum, instruction and assessment. In his role as Director of Assessment his focus was to make the data available to those who should use it, in a format they could understand and use, and assist in creating next steps in making the data of value and actionable. Since coming to ACT, Bryan's work has centered on developing K12 PD and workshops related to all ACT K12 products. His knowledge and experience of the K12 setting is invaluable in his work with schools and districts.*
