## The Virtual Math Classroom Workshop

July 27, 2021 | 9 AM – 2:30 PM

Join us for this interactive session to dive into how to use online resources to increase student engagement, discourse, and success in blended learning and online environments. We will explore the use of various tools that will bring virtual learners alive and encourage active learning and participation in online classrooms. Participants will learn how to use a virtual classroom as part of a brick and mortar classroom to break down barriers and engage all learners.

### OBJECTIVES

*Participants will:*

- Create a template for group work and collaboration using Google products
- Learn how to use online resources to make interactive games
- Use online products to encourage discussion among virtual learners

### THIS WORKSHOP IS A GOOD FIT FOR:

- Participants who are new to blended or virtual instruction.
- Participants who are early in their comfort with online instruction or blended learning.

### WHO SHOULD PARTICIPATE?

- Grades K-12 Teachers
- Math Coaches
- Instructional Leaders

### PRESENTED BY:

Sara Fleischman,  
Director

Kris Meffert,  
Consultant

Nicole Esterling,  
Consultant

### PARTICIPANTS WILL NEED:

- Laptop or other device
