Objectives

Positive Interventions and Supports (PBIS) is a proactive systems approach for creating and maintaining safe and effective learning environments in schools and ensuring that all students have the social/emotional skills needed for success. This full day overview session is for district leadership teams interested in the why, what and how of implementing a School-wide Positive Behavior Interventions and Supports (SW-PBIS). The overview will describe the rationale, model and explanation of the step-by-step implementation of all three tiers of SW-PBIS and the steps for getting started including district commitments necessary for implementing this systems model.

Target Audience

District Leadership teams of 3-5 members including district administrators, building administrators, pupil services directors/coordinators, teacher leaders, and potential site-coaches

Schools committed to the implementation of School-Wide Positive Behavior Supports will also be required to attend the new coaches orientation October 4, 2012, and universal level team training days on November 12, 2012, January 17, and May 2, 2013.
