Apps for Mobile Devices

Friday, August 8, 2014 • 9 a.m. - 3:00 p.m.

Trainers: Kurt Wismer and Ben Hommerding

Description

BYOD- Bring Your Own Device, this is quickly becoming a popular idea for many districts as money gets to be harder and harder to come by. In this session, we will be exploring how you can leverage the Power of Google Apps and other Apps on the mobile platforms of both Android and iOS for those students who bring their own device. You might even pick up a thing or two for yourself! Focus placed on Mobile Devices and apps that work on iOS and Android and will help to extend your abilities as a teacher enhance and engage your students.

About the Trainers

Kurt is a Google Certified Teacher and Trainer. As a Business, Marketing and IT teacher at Shiocton School District, Kurt uses technology throughout his curriculum to create durable learning experiences for his students that are both rigorous and transformative as they prepare for their careers and continued education. Kurt is part of the technology team at Shiocton that has lead the school to a 1:1 environment and has provided considerable training and support in that initiative. Kurt is just finishing his master's degree at UW-Stout in Career and Technical Education.

Ben is a teacher and Technology Innovationist (Tech Coach) and coach in the Winneconne Community School District. He teaches high school students in App Design and a course called TIPS. TIPS is a pilot course where students will leverage the power of Google Apps, and their online based technologies to create weekly newscasts, promotional videos and commercials, design applications, and work with the school, district, and community to provide technology based problem solving services. Ben uses 20% time and the power of inquiry based learning to push his students to new heights. He hopes to create a model for

this type of learning that any classroom, school or district can adopt to create schools that truly prepare their students for the future. Ben is a Google Apps Certified Trainer and Google Certified Teacher, and a Glass Explorer.

Who should attend? This is intended for beginner and intermediate users.K-12 Regular and Special Education Teachers, District Administrators, Directors of Curriculum and Instruction,

Cancellation Policy: Any registration cancellation must be received 48 hours before the scheduled date for a refund to be issued. Because attendance at most sessions is limited, persons registering and not in attendance on the day of the session will be charged the full registration fee. CESA 6 reserves the right to cancel any session due to insufficient enrollment. Participants will be notified by email or phone if a cancellation occurs.
