About LLI:

LLI is a small group intervention for children in Kindergarten through Grade 2 who find reading and writing difficult to learn. Reading Recovery ® is recommended for the lowest first grade students, and other low students may be serviced through Leveled Literacy Intervention ® in groups of three. In Kindergarten and Grade 2, the children selected for the interventions are the lowest achievers in literacy in their grade level and are not receiving another intervention.

Leveled Literacy Intervention Features:

- ◆ Fast-paced lessons that include explicit instruction in phonemics/phonics, vocabulary, fluency, and comprehension
- ◆ Daily lesson guides with prescribed sequences of texts
- ◆ Instructional interactions between teachers and students with a 3:1 student-teacher ratio
- ◆ Emphasis on comprehension of fiction and non fiction texts with time engaged in reading continuous texts
- ◆ Continuum of student understandings to guide the series of lessons
