## Evening Sessions

Sign-up for sessions will occur during dinner (4:45pm-5:15pm) via Google Form

### Taste of Google Classroom

(max. 30)

If you have no idea what Google Classroom is, come learn about it during this sampling!

If you are familiar with learning management systems such as Moodle, Haiku or Edmodo, you can let them go by integrating Google into your classroom through your district GAFE domain. If you don't use an LMS or are unfamiliar with the concept, think of Google Classroom as a platform where you can organize your Google Drive content in better, more efficient ways. You will be able to assign and follow tasks, publish announcements, shape the evolution of this innovative Google tools for etc. and help and FREE educators!

### MinecraftEDU

(max. 20)

Are your students crazy about Minecraft?

Get a "taste" for Minecraft EDU to tap into your students love for this uniquely creative game. Minecraft EDU offers lesson plans, activities, and enrichment opportunities that are accessible for 1st graders through high school application. Modeling, scaling, re-creation, and problem-solving skills can be reinforced through a gaming context your students already understand.

### WI Media Lab (Flocabulary, Quest)

(max. 20)

Wisconsin Media Lab continues to get better and better!

With the new additions of Flocabulary and Quest, more great video treasures are available to enhance your instruction. Flocabulary is a great way to introduce your students to current events with engaging and fun activities; QUEST is your source for current, innovative, and diverse science and engineering stories. This session will give an overview of these new and exciting (and free!) additions to Wisconsin Media Lab.

### Tools for Critical Thinking (thinkCERCA)

(max. 10)

Looking for authentic and high quality informational text that promotes critical thinking?

Seeking techie tools that provide a platform or structure for critical thinking?

The Common Core focuses on developing the critical-thinking, problem-solving, and analytical skills students will need to be successful. This session will give you a taste of some sources of authentic text perfect for critical thinking-related learning.

### Google Extensions & Apps

(max. 30)

Looking for extensions or supports for learners in your classroom?

Join me in exploring many free Google extensions and apps that are easily accessible and can increase student engagement! There are more than 30,000 free and paid apps and extensions available to you so learn how to add these valuable learning resources to your toolbox!

### CTE Network

(max. 10)

Take this opportunity to gather with your discipline colleagues and network about any topic or current issues!

These sessions are set up as totally optional, so feel free to attend the actual Tech sessions at all three times if you prefer!!

(Sherri will be on hand to facilitate.)

Session A: FCS

Session B: Agriculture/Tech Ed

Session C: Business/Marketing
