moodle

This is an introductory 2-day workshop. No prior knowledge or background with Moodle is expected.

Moodle is software to create and manage classroom websites with secure online learning activities: forums, journals, glossaries, wikis, quizzes, assignments, resources, etc. It is appropriate for grades 4-12 and all subject areas. Participants in this hands-on workshop will gain a thorough understanding of what Moodle can do, as well as begin to build their first "course/site." Follow-up support options will be discussed. To learn more about Moodle, explore http://moodle.org/. Lunch is provided.

*** Participants must bring a laptop with wireless Internet capability. ***

There will be an option to earn 1 graduate credit from Viterbo for $110.

Register at http://www.myquickreg.com/
