

Coaching Strategies to Support Educator Effectiveness

October 8, 2014 OR October 9, 2014

8:30AM-3:30PM

CESA #10, 725 West Park Avenue, Chippewa Falls, Wis.

Learning to teach is a career-long, developmental process that involves a continuous cycle of planning, teaching, and reflecting. This cycle is most greatly enhanced by effective coaching. It is with focused, intentional practices a group of educators can pursue a career of growth towards expertise. This one day session focuses on the skills, strategies and tools necessary for successful peer coaching.

Learning Outcomes:

1. Develop and use coaching language as a formative tool in teacher development, including SLO related conversations.
2. Practice the use of a coaching protocol in order to move educators to professional growth and application.
3. Analyze and assess differentiated support that establishes an environment for professional growth.
4. Determine coaching strategies for application.

We recommend teams from schools/district attend together.

One credit available through St. Mary's University for \$140. (Information given the day of event.)

Register on www.myquickreg.com
prior to October 1, 2014.
