In these changing times of interventions, services, and uses of data your group of specialists need to interact and discuss what is effective, how you are problem solving, what materials and instructional strategies exist that should be used and so forth. We will provide updates from the State Title I Network, use one academic article with a protocol and the rest of the time will be facilitated networking. We will discuss data systems, schedules, interventions and more based on your needs.

Learning Outcomes:

1. Title I Updates
2. Network with other Title I Teachers, Consultants, and Title I Network Coordinator on current practices occurring within Title I
3. Network on data use, program supports, schedules, and interventions
