

November 4, 2014 & February 5, 2015
9:00am - 3:00pm
CESA 10 Conference Center

Math Network Meeting

Collaborate with other Math Teachers

Today more than ever, teachers need a venue to connect and collaborate. The Math Network at CESA 10 is designed to serve this need for all K-12 teachers. The focus for the Math Network this year will be on the newest document from NCTM, *Principles to Action* (the book is encouraged but not required for our discussions). During our meetings this year we will explore the recommendations for change that 25+ years of research are encouraging all of us to consider. We will continue to explore the design of our new assessments and consider instructional shifts that are needed to help students meet the demands of this new vision. We will focus on topics related to "Mindsets", disciplinary literacy, and good math tasks that can help elicit student thinking.

Audience:

K-12 Math Teachers &
Math Teacher Leaders

Register on
www.myquickreg.com
prior to October 28 &
January 29

Contact:

Michelle Parks
(715) 720.2034
mparks@cesa10.k12.wi.us

Registration Assistance:

Judy Doro
(715) 720.2038
jdoro@cesa10.k12.wi.us

Learning Outcomes:

1. Participants will share ideas with math leaders from other districts.
2. Participants will brainstorm ideas to connect across the CESA 10 area.

Lunch Provided
