

A³ – Assess, Analyze, and Address

Request for comparison group participants

The A³ grant is a 3-year project in which teachers will develop and implement formative assessment practices and formative assessment tools for their classrooms.

Grant project leaders are looking for up to 45 teachers who would be willing to take part in the grant as part of the comparison group.

Expectations of Comparison Group participants:

Teachers in the comparison group would be expected to do the following:

Take (Learning for Math Teaching) LMT test and complete a Mathematics beliefs survey in November 2014 and again at a later date. Both the test and survey can be taken online from any computer with codes that will be provided to you. It is estimated that the test will take no more than 2 hours and the survey, only 10-15 minutes. No names will be associated with the data collected and all results will be confidential.

Compensation for Comparison Group Participants:

Comparison group participants will receive \$200 (\$100 after each testing period is completed).
