Instructor: Sharon Webb, Google Apps for Education Certified Trainer
Location: CESA 2
1221 Innovation Drive - Room 111
Whitewater, WI 53190

What is Google Apps for Education?

Google Apps for Education is a suite of online collaborative tools that are free for educational institutions and non-profits.

The tools include Calendar, Gmail, Drive, Video, and Sites. In addition to these core apps, there are thousands of web-based, third party applications that integrate with Google Chrome to extend and enhance the functionality of the suite.

Students and teachers can leverage Google Apps to create, share and learn with their school, their district and the world. Because Apps runs on the unparalleled Google infrastructure, schools can focus on educational mission and leave the burden of maintaining a collaborative platform to talented Google engineers working around the clock, every day, to deliver reliability, security and innovation.
