

# Online Book Study: “I Get It!”

Register by 11/24/2014 to receive your copy of the book!

Participate in the **online book study** from the author Audra Jensen who is a special education teacher, parent of a child with autism, and a board-certified behavior analyst.

“Reading comprehension is more than decoding words. It depends less on language comprehension and more on a student's social thinking ability. Yet little has been written from this point of view. Until now. Author Audra Jensen brilliantly illuminates the synergistic relationship between social thinking and reading comprehension. Teachers, administrators, parents, and clinicians alike will appreciate her positive, practical approach to helping children learn to read for meaning.”
