The preschool, ages 3-5, educational environment categories for children attending a regular early childhood program have changed. The categories A1, A2, and A3 can no longer be used and are replaced by four new categories (R1, R2, R3, and R4). These changes will impact Fall 2010 ISES reporting. As a result, you will need to identify and reclassify any children currently assigned to A1, A2, or A3 who will be age 3, 4, or 5 on the October 1 Child Count.

This ITV event will also review environment codes for students 6-21, with an emphasis on accurate reporting. There will be time for questions and answers during the presentation.
