

Number Talks Book Study

Helping Children Build Mental Math and Computation Strategies

January 13, & 20 & February 3, 9, & 24, 2015

3:45 PM—5:45 PM

Altoona School District

809 7th St W

Altoona, WI 54720

Audience: K-8 Math Teachers

Registration

All registrations are done electronically through the *MyQuickReg* System (<http://myquickreg.com>)

Registration Deadline:
January 12, 2015

Contacts

Details:

Michelle Parks
CESA 10 Math & Science Consultant
Phone: 715-720-2034
Email: mparks@cesa10.k12.wi.us

Registration:

Ginny Shoemaker
I.S. Program Assistant
Phone: 715-720-2038
Email: gshoemaker@cesa10.k12.wi.us

Today's mathematics curricula and instruction must focus on preparing students to be mathematically proficient and compute accurately, efficiently, and flexibly. But what does this mean? This book study will introduce the strategy called "Number Talks" which builds upon the key foundational ideas of mathematics such as composition and decomposition of numbers, our systems of tens, and the application of properties. Participants will learn how to implement Number Talks, deepen number sense and create a rich classroom environment.

Learning Outcomes:

1. Participants will explore how to implement a Number Talk.
2. Participants will explore their own content knowledge as it related to Number Talks.
3. Participants will complete a Number Talk with students and reflect on the implementation.

One credit option available through St. Mary's for \$140.
