

Universal Design for Learning (UDL): Understanding, Designing and Personalizing Learning for Diverse Learners

February 12, 2015

9:00a-3:15p

CESA 2 Conference Center, Whitewater WI

This workshop will discuss what Universal Design for Learning® (UDL) is and how it looks in today's classroom of diverse learners and personalized learning environments. The UDL framework helps to ensure that students get learning right the first time-every time! UDL facilitates Personalized Learning Environments in both special and general education settings. The framework provides diverse learners multiple means to access information, engage in learning opportunities and express what they know. UDL minimizes barriers, maximizes learning, and helps all learners meet high standards. Come and discover some web-based tools that will help ensure that "everybody learns"!

About the presenter:

Diane Rozanski is an Instructional/Assistive Technology Professional Development Specialist who incorporates the UDL Principles, and technology integration, to enhance communication, collaboration and learning for ALL learners at ALL age levels. Diane provides coaching and mentoring in the areas of personalized learning, special education and instructional technology. She has presented at local, state and national conferences. Diane is a certified Apple iOS/OS X trainer and has certification in the areas of online instructional design and facilitation.

Cost:

Free for CESA 2 AT Academy members

\$25 for CESA 2 AT member districts

\$85 all others
