This 2-day training for Early Childhood Professionals presents and builds upon the philosophy and format of the Creative Curriculum©. Specifics on practical strategies that intentionally use play interests and hands-on learning, including math and literacy interest centers. Join Us!

Why Should I Implement the Creative Curriculum© in My Program?

The Creative Curriculum©:

- illustrates developmentally-appropriate practices in the classroom.
- applies a general knowledge of child development, with particular knowledge of each individual child and family.
- creates a learning environment for the whole child, supporting social-emotional development as well as academic progress.
- encourages children to experiment, explore and pursue their own interests.
