

CESA 6 Instructional Services and the CESA 6 Math Center present:

# Bringing Coherence to High School Mathematics

## From Program Structures to Student Learning

### A Statewide Summit

### March 17, 2015

#### Course Description:

How can districts:

- *Develop a high school program that provides coherence rather than being a series of courses?*
- *Provide an accessible and equitable mathematics program for all learners?*
- *Support students in developing meaningful understandings of algebra, statistics, functions, and geometry in high school?*
- *Best prepare students for post-secondary work in mathematics, both college and career?*

This full-day summit will bring together mathematics leaders and teachers from across the state to discuss the need for new and innovative approaches to addressing student needs in high school mathematics.

An outcome of this summit is to create digitally-connected networks of teachers and mathematics leaders that will continue to collaborate, share resources, and elevate and promote innovative and effective high school mathematics practices in Wisconsin.

#### For additional information:

**Lori Loehr**, CESA 6 Effectiveness Project & Mathematics Coordinator  
(920) 236-0882, lloehr@cesa6.org

or

**Mary Ann Hudziak**, CESA 6 ESEA Support & Mathematics Coordinator  
(920) 236-5023, mhudziak@cesa6.org

#### Sponsored by:

#### Questions:

Diana.kasbaum@dpi.wi.gov

Mike Steele: steelem@uwm.edu
