Event #1: Getting Off to a Strong Start for Evaluators in Either the DPI or CESA #6 Model:

This workshop is aimed at evaluators using either the DPI or CESA #6 Model and is a repeat of these sessions from last year. Based on feedback from those who participated, we've decided to offer these again. In this first event, we'll examine changes to the EE System for 2015-2016, walk through beginning-of-year tasks in the EE System, and break into model-specific groups to examine the workflow in either Oasys/MLP or Teachscape. Participants will learn with and from one another through a discussion of lessons learned from last year's implementation.

Event #2: Staying Strong at Mid-Year for Evaluators in the DPI Model

This workshop is aimed at evaluators using either the DPI or CESA #6 Model and is a repeat of the session from last year. In this event, we'll walk through middle-of-year tasks in the EE System and break into model-specific groups to examine the workflow in either Oasys/MLP or Teachscape. Participants will learn with and from one another through a discussion of artifacts and evidence.

Event #3: Wrapping Up the EE Year for Evaluators in Either the DPI or CESA #6 Model

This workshop is aimed at evaluators using either the DPI or CESA #6 Model and is a repeat of the same session from last year. In this event, we'll walk through end-of-year tasks in the EE System and break into model-specific groups to examine the workflow in either Oasys/MLP or Teachscape. Participants will be apprised of any changes being made to the EE system for 2016-2017.
