

# WISExplore Retreats at CESA 3

## Summer, 2015

### *Digging Below the Surface: Moving Beyond Surface-level Data Analytics*

These two day data inquiry events will provide educators with the knowledge and tools necessary to ask and answer tough questions related to student performance and equity in their districts.

This year, attendees will direct their own learning by selecting the data topics they wish to explore—able to move well beyond achievement, growth and trends. Have you considered the following questions? What data sources would you use to explore them?

- Are there subsets of the school community who perceive the school climate more negatively than others?
- Once we find the students who have a higher probability of dropping out, how can we engage them?
- Which parents belong to and regularly attend the parent/teacher organization? Serve on school committees? What are the social class comparisons?
- To what extent are students who are labeled (spec ed, ELL, poverty) proportionally represented in extracurricular activities and clubs?

Register for your choice of three summer events at CESA 3, each from 9 AM-3 PM.

Costs for SID membership schools is free for teams of five or less

Non-members: \$200 per person; \$600 for team of five.

**July 15 & 16**

**August 3 & 4**

**August 17 & 18**
