

iPad/iPod Mobility Enhances Learning

**September 22, 2010
12:30-3:30**

**CESA #2 Conference Center
448 East High Street
Milton, WI 53563**

The iPad and the iPod Touch are drawing attention from educators who are enthusiastically integrating the mobile device into their classes. It is being used to enhance reading fluency, function as a graphing calculator, serve as a source of reference materials for social studies, act as an access tool for curriculum podcasts, be the voice of those that are unable to speak, send and receive emails, juggle a busy calendar, access the internet, and support elementary students in their classroom.

Would you like to learn more?

Come and experience what it takes to deploy an iPod Touch on an iPad in your school and see exciting new learning solutions. You'll also get a chance to discuss with other school districts how mobility is increasing learning opportunities.

Paul Musegades, Apple - presenter
