

Remediation+ Workshop

CESA 8 Office

April 28-29, 2015

9:00 AM – 3:00 PM

Remediation Plus' mission is to create a PLC of research-based teacher interventionists in a school district for young early struggling children. We developed the R+ System explicit systematic lesson plans in a reading clinic for identified children in Toronto Canada based on the compelling research findings of the NICHD. It didn't take long to see many students soar and the need for their special education placement frequently unnecessary.

The randomized controlled study in a Wisconsin school district is proving that when teachers are given the tools & training, we can reach our goals of improving literacy and greatly reducing special education numbers! On the whole, a minimum of half of the 85 systematic lesson plan pull outs will improve reading (phonemic awareness and phonics), spelling, fluency, vocabulary, comprehension and writing by 2-3 grade levels. Those with minimum gains should remain in the systematic delivery because they are probably dyslexic! We'll discuss double deficit kids during training.

Every teacher participating in the training must have their own kit!

These kits are teacher licenses with no renewable annual costs at this time. The kit costs \$3000 and *with the support from Remediation+ we are able to offer the System to all participants for \$2100.*

Cost: \$300 per participant for CESA 8 - CIA or Literacy Member School Districts for the two-day training + \$2100 for the Remediation+ System Kit; \$500 for all others + \$2100 for Kit. **All participants must have their own kit.** You will have the option in myquickreg to order a kit through CESA 8 with the discounted price of \$2100. We will bill your district for it along with your registration fees

Today, Remediation Plus is an acknowledged leader in providing both preventative and remedial teaching solutions that are rigid, structured, cumulative, multisensory and cognitive - and are proven effective from kindergarten to adults.

As the previous executive director of a private school for struggling students as well as a personal journey, Jo-Anne, President, Founder of R+ Systems saw the need for a supportive curriculum of explicit systematic lesson plans to help teachers reach their goal of honoring research based intervention during the daily 30 minute pull out sessions! Without the support of such a curriculum, the endeavor IS DIFFICULT to replicate!

Day 1 (Tuesday, April 28, 2015 – 9AM – 3 PM):

- A review of the reading research from the NICHD findings from 1995 & the 5 big ideas from NRP
- A review of Orton Gillingham pedagogy
- Analysis of case studies of struggling students, how to do your detective work
- A review of the R+ teacher tests
- Learning the articulation of the 44 speech sounds & 90 grapheme representations
- Learning the language of the Science of Reading, phonemes, graphemes, fluency training, blending, segmentation, syllables.
- Review of the lesson plans
- More practice with the speech sounds

Day 2 (Wednesday, April 29, 2015 – 9AM – 3 PM):

- Review the articulation of the sounds and how to conduct a visual-auditory drill
- A study of the elements of the R+ lesson plan
- We're role playing the lesson plans together all day to develop comfort and mastery!

For questions or more information contact: Darla Brink - dbrink@cesa8.or, or

Betty Kaliebe, 920.855.2114 x 252 - bettyk@cesa8.org

It has been demonstrated that 95% of students can succeed with the sequence of lesson plans that form the foundation of the Remediation Plus System.

Remediation+ Workshop

April 28-29, 2015 – 9 AM – 3 PM each day

CESA 8 Office, 223 West Park St., Gillett, WI 54124

Registration: www.myQuickReg.com

Cost: \$300 per participant for CESA 8 - CIA or Literacy Member School Districts for the two-day training + \$2100 for the Remediation+ System
\$500 for all others + \$2100 for Remediation+ System

All participants must have their own kit. You will have the option in myquickreg to order a kit through CESA 8 with the discounted price of \$2100 which is a savings of \$900 (plus shipping). We will bill your district for it along with your registration fees.

Limited seating is available for this workshop, early registration is encouraged.
