

# eduCLIMBER

Data is just the beginning.

**November 13, 2015**  
**1:30 pm - 3:30 pm**  
**CESA 10, Chippewa Falls**

## Features:

- **Data Management** – put your data to work. Use our cloud-based application to help you manage nearly endless assessment types ranging from rubrics to nationally-normed tests.
- **Problem Solving** – Analyze your data to determine district, school, grade, class and individual needs and create necessary plans and forms in one program. Designed to help implement RtI in your multi-level system of supports.
- **Interactive data analysis** – Interact and click on graphics to drill into the data, and pin the ones you want to see to your dashboard. Identify skill trends, strengths and weaknesses in your school. Quickly switch between target sets and criterion. Cross-correlate math vs. reading, letter grades vs. standardized test with our analytics features.
- **PBIS** – An advanced system for entering and tracking behavior incidents. Quickly identify your big five data and drill down to analyze behavior trends. Identify students in need and create behavior interventions and monitor progress using DBRs, DPRs, and frequency counts. Use our customizable forms for FBAs and BIPs.
- **Monitor progress** – Enter or import scores for the academic and behavioral interventions to monitor students' response to intervention. Set individualized goals and analyze rate of improvement compared to national norms.
- **SLO management** – Easily calculate and generate goals as well as document strategies as part of School and Student Learner Outcomes.

## Benefits:

- **Customizable** – Create custom local assessments, rubric scores, pre/post-tests, behavior plans, meeting forms, student learning plans, and custom case-loads. Quickly view data to meet your needs comparing student accuracy vs. percentile rank vs. growth rates. Easily navigate from using norms to criterion to analyze your data.
- **Evolving** – We listen to our users and ask for feedback to make this an application you will use and find valuable. We'll continue to refine, enhance, and add functionality.
- **Efficient and accurate** – Spend more time using the data and less time with manual data entry. Our support team will work with you to ensure your data is attainable and functional.
- **Integrated indicators** – Put your academic and behavioral data in one system to better understand students. Use the data to assist in educator effectiveness systems by targeting growth and setting realistic outcomes.
- **Ease of use** – With customizable dashboards, users quickly navigate to the information they need with our pinning features, personalized calendars, and email notifications.

**Cost:** No charge.
