

3D PRINTING WITH MAKERBOT

How to Incorporate 3D Printers into Your School Curriculum

December 11, 2015

9:00 am – 2:30 pm

CESA 2

1221 Innovation Drive

Whitewater, WI 53190

Presenter: Adam Lederfarb, MakerBot Learning Instructor

Agenda (of course, all for education)

- **What is MakerBot?**
- **Why 3D printing?**
- **What is the MakerBot Ecosystem?**
- **3D Printing use cases**
- **Live demo of MakerBot Replicator Desktop 3D Printer**

About MakerBot

MakerBot is leading the Next Industrial Revolution by setting the standards in reliable and affordable desktop 3D printing. Founded in 2009, MakerBot has built the largest installed base of desktop 3D printers sold to innovative and industry-leading customers worldwide. 3D Printing can change the way we design, the way we build and even way we dream. This powerful new technology gives us the freedom to transform imagination and innovation into reality. It's changing everything from Art to Architecture and from Manufacturing to Medicine. But until now, 3D Printing has been expensive and complicated.

CESA Purchasing (The Smart Shop) <http://www.cesapurchasing.org/>

Event Fee: **Free for CESA 2 Instructional Technology Service Members**
 \$75.00 - Non Instructional Technology Service Member

To register, go to <http://www.myquickreg.com>

For registration questions, please contact Sharon Anderson at sharon.anderson@cesa2.org

For workshop content questions, please contact Sharon Webb at sharon.webb@cesa2.org

You are not registered unless you receive an email confirmation from myquickreg.com. If you don't receive one, please check your SPAM folder.

If you need special accommodations, registration and payment must be made three weeks before workshop.

Should enrollment be insufficient to cover the cost of the event, registered participants will be notified by email.
