

Nurses Training Opportunity

- Medication training and Requirements
- Review the *New Students with Diabetes: A Resource Guide for Wisconsin Schools and Families*

Presenters: Rachel Gallagher, RN, CPNP, NCSC and DPI School Nurse Consultant and Leah Ludlum, RN, BSN, CDE and Department of Health Services, Wisconsin Diabetes Prevention and Control Program Director

Objectives:

- Understand changes to Chapter 118.29 or the Administration of Drugs to Pupil and Emergency Care
- Identify the Department of Public Instruction approved training requirements
- Become familiar with the available DPI training resources
- Identify statewide benefit, use and application, of guide as an educational tool and resource tool for schools and school personnel
- Recognize at least two key elements contained in document that will be critical to keeping students with diabetes safe at school and during all school sponsored activities.
- List one opportunity in which you intend to share document itself or information and resources contained in document
