#817 Fall Meeting - Monday, October 12, 2009

Topics will include the experiences of districts using MAP as part of an identification process for students in need of summer school intervention, and the use of DesCartes along with district curriculum resources to target summer school instruction. Other fall topics will include the use of MAP scores to predict students likely to score in minimal and basic ranges on WKCE and using MAP data to build parent partnerships at fall conferences. Districts are invited to bring samples of teacher training tools, parent communication pieces, and other resources to share.

#818 Winter Meeting - Tuesday, December 8, 2009

Members are encouraged to help develop the final agenda; mid-year topics include assessing progress toward school & grade-level growth goals, developing placement guidelines for advanced or supportive coursework, and developing targeted instruction and academic vocabulary using Lexile scores and DesCartes.

#819 Spring Meeting - Thursday, March 4, 2010

Spring topics focus on use of growth data to evaluate areas of strength and concern, and goal-setting with students, parents, and other key stakeholders. Planning for summer school placement, professional development for data leaders to support reflective practice, and topics of member interest will be on the March agenda.
